## Trend Micro Titanium Maximum Security Activation manual for mobile phones

After you install Titanium Maximum Secutiy, every customer can receive an access to Trend Micro Account system, where he can revise and manage license keys owned by him.

Steps are following:

- 1. Install Titanium Maximum Secutiy
- 2. Right Click on the Titanium Logo is the Status bar
- Select Trend Micro Account. You will be redirected to <u>https://www.trendsecure.com/my\_account/signin/login</u> (Account is created during installation of Titanium). Please, log in at the web site.
- 4. You can see an overview of the Licenses he has. Go to Trend Titanium Maximum Security. Click the "Manage" button.
- 5. Select the "Downloads Available" Tab
- 6. Under Trend Micro Mobile Security click the "click here" button. Then the Screens will lead you through the installation of Mobile Security.

	Trend Micro Mobile Security	What's the Risk?
Download	Step 1: Download the Software Supported phones: Nokia E50 . Select your telephone from the list and click Next. The will include installation instructions.	More information

Please note: only the models listed in the drop-down are currently supported with Trend Micro Internet Security Pro.

## 3. Step 2: Install the Software.

- a. Transfer the **MobileSecurity.sis** file that you just downloaded to your mobile phone using Bluetooth PC-Suite or similar.
- b. Open MobileSecurity.sis on your telephone to install the software.
- c. Click the Next button on the website to activate your protection.

4. **Step 3: Get the Serial Number.** After installing the software, select "Options" on your telephone, then choose "Register." Type the serial number shown on the registration screen on your phone in the field on the website, and then click **Next.** 

Please note: This serial number is **not** the same as your Trend Micro Internet Security Pro serial number.
